Attachments: Status of Palos Verdes Shelf Cleanup

See changes in yellow.
I may have gone way overboard.....

Judy, I added a few edits, which I pasted here. Wasn't sure how to edit the attachment you sent me.

Might we add more to answer his question, "Are there any plans to remediate Palos Verdes Shelf superfund site?" Could talk about your pilot study and then the MNR and then your upcoming FS to look at the final remedy?? Or do you think he is only referring to the drums, which we discuss.

Thanks, John

John:

Please see attached draft email.
Feel free to edit.
I know you are out and won't get to this till January.
I am getting a jump on this because the first week of January will be crazy for me due to the Edwards Arroyos dispute.

Judy

Romie, I've been off a bit on use or lose and am working some today just to get a letter back to Enrique. I won't have time to put a thoughtful, responsive reply together today. Suggest you respond to Mr. Freeman, saying that the PV Shelf team is off for the holidays so will have to reply in January. Judy will then be back and can put something together.

Thanks, John

Subject: Palos Verdes Shelf Question raised following Public Meeting on December 10th.

Hello John and Judy,

Last night's meeting went well. We had 40 people attend and outside of some technological bumps it was ok. In regards to Palos Verdes Shelf, while not asked during the meeting, I did receive a few questions from a Mr. George Freeman. Attached is his initial email and my response to him. John since Judy is out until the new year could you please respond to Mr. Freeman and cc me.

Thank you,
Romie

Thank you,
Romie Duarte
